Subject: Qs and As for Wheeler Prep Meeting
Attachments: Dourson QA - OCSPP 9.7.17.docx; Worker Protection Standard.docx; Chlorpyrifos.docx; Dicamba.docx; PRIA4.docx

Rick and Ed,

In preparation for the Wheeler prep meeting this week, Kaitlin sent the attached set of Qs and As that were prepared last year to prep Mike Dourson for his confirmation hearing (first attachment), just for us to use as a reference as we prepare the Qs and As. Even though the OPP section includes a pretty lengthy list of topics, Kaitlin said we only need to focus on preparing Qs and As for WPS, Chlorpyrifos, Dicamba and PRIA. I've pulled the Qs and As out from the full document and saved them into individual documents to make it easier to get feedback from the divisions.

Since Rick already asked the DDs for questions, let me know how you want me to move forward with this new information. Do you want me to send the attached topic-specific Qs and As out to just FEAD (WPS), PRD and HED (Chlorpy), Steve (PRIA) and RD (Dicamba) and ask them to update the appropriate attached document, or do you want me to work on the updates based on what the DDs send us for these topics? Some will require extensive updates. For Dicamba, wondering if we can work on that one in the IO and update it based on Mike Rounds inquiry and also use some of the recent press inquiries.

Here is a list of the SEPW Committee members:

<https://www.epw.senate.gov/public/index.cfm/members>

I can do a cross check between the members and the 4 topics for recent congressionals. This is a quick check:

WPS: Udall, Harris, Booker, and Blumenthal previously placed a senatorial hold on the Pesticide Registration Improvement Act (PRIA) in part due to their concerns with potential changes to the C&T and Worker Protection Standard Rules. (there are others to include)

Chlorpyrifos: S.1624 (Udall) would ban the use of chlorpyrifos on food. SEPW cosponsors include Sens. Booker, Cardin, Gillibrand, Markey, Merkley and Whitehouse.

Dicamba – Mike Rounds inquiry

PRIA - Udall, Harris, Booker, and Blumenthal (others)
